SKILLS

Programming Languages

Java, JavaScript, TypeScript

Tools & Platforms

Git, GitHub, Vercel, Postman, Render

Frameworks & Libraries

React.js, Next.js, Node.js, MongoDB, SQL, Tailwind CSS, Material UI, Docker, GraphQL

PROJECTS

StudyNotion

may 2023 – august 2023

- Developed a learning platform StudyNotion using React.js and Tailwind CSS.
- Students and educators can view their progress and performance.
- StudyNotion is the ultimate platform for students, educators, and lifelong learners.
- Deployed the platform on **Vercel**, ensuring fast and reliable delivery to over 10k monthly visitors.

Portfolio

- I have built my portfolio using React.js, Typescript and Tailwind CSS.

EDUCATION

- Graduate from Patliputra university physics(hons)- 67% June 2020 – August 2023
- 12th Nalanda College – 79%

FUTURE GOAL

- Committed to continuous learning and skill development to stay at the forefront of web development trends and technologies.
- Dedicated to creating user-centric web solutions that enhance the online experience, focusing on usability and accessibility.
- Seeking to refine problem-solving skills and develop innovative web applications that address real-world challenges and improve efficiency.
- Aspiring to collaborate effectively within cross-functional teams, leveraging diverse perspectives to deliver high-quality web projects.
